Lieutenant Gen. E. J. Heinz
Director Intelligence Community Staff

Dear Ed,

It was nice to see you at the Tri-Service Data Fusion Symposium last month. I wish you could have remained a while after your presentation. Everyone likes to bask in the limelight after a successful performance, and besides we could have talked a little longer!

I know you keep a very busy schedule and perhaps like Gen. "T" you have several briefers waiting in your outer office for the possible open moment! That notwithstanding, I would like to give you a short overview of the Joint Service Imagery Processing System (JSIPS) either in Washington or - even better - here in Dallas. We could bring you up to date on the progress, schedule and program details. I know you are interested in the fielding of new tactical photo interpretation capability, having been there yourself.

Should you be able to visit here, we could demonstrate our softcopy imagery capabilities, brief you on E-Systems overall capability and introduce you to some of the dedicated people working on the program. Alternatively, I would like the chance to visit you in Washington and perhaps introduce you to my boss, Dr. Bob Collins, the Vice President for Advanced System where JSIPS is being developed. If you can find a place in your schedule for either a visit to Dallas or for us to call on you, please let me know. My telephone number is (214) 272-0515 extension 4576.
Sincerely,

STAT
